

Product Name: cArtù® (Registered Mark)

Material:

Recycled and recyclable paper

Recycled and recyclable paper:

Kraft 70 gr / Kraft 125 gr / Kraft 170 gr / Kraft 220 gr

TL3 125 gr / TL3 170 gr / TL3 220 gr

Kraft White/Havana 175 gr

Color:

Havana / white

Product description:

One or two flat layers of paper combined with another corrugated to create a single shelf / panel.

Physical characteristics:

Covered or uncovered wave corrugated paper

Pitch: 19 mm

Standard thicknesses: 14/20 mm (tolerances: +/- 10%)

Non-standard thicknesses: from 14 to 20 mm (on specific request - tolerance: +/- 10%)

Pitch: 12 mm

Standard thicknesses: 10/12 mm (tolerances: +/- 10%)

Non-standard thicknesses: from 10 to 12 mm (on specific request - tolerance: +/- 10%)

Processing machines::

Plotters, cutters, die-cutters, crease cutters, slotter, flexo printer, digital printer.

Rolls:

Maximum width: 1200 mm

Standard length:

Thickness 10 mm: 55 mtl - diameter 800 mm.

Thickness 15 mm: 32 mtl - diameter 800 mm.

Thickness 20 mm: 25 mtl - diameter 800 mm.

Maximum diameter: 800 mm

Sheets:

Maximum width: 1200 mm

Maximum length: 3000 mm

If Required:

The mark of
responsible forestry
FSC® C153979

Environmental info:

Specialties:

cArtù can be laminated with other materials in particular we have standard materials as paper laminated with pe and coated with aluminium (for both materials see the “environmental compatibility” about the waste).

It can be digitally printed, either on the raw material or directly on the finished product.

Flexo printing also on full background.

Application:

Packaging: impact protection, filling, interlayer, containers.

Design objects / Acoustic panels / Display.

Environmental compatibility:

100% Recyclable according to Aticelca method 501/2019 Level B *

cArtù is produced with recycled and recyclable paper.
